The screenshot shows the Flickr website interface. At the top left is the Flickr logo with the tagline "LOVES YOU". To the right of the logo is a navigation menu with the following items: "Home", "You" (with a dropdown arrow), "Organize" (with a dropdown arrow), "Contacts" (with a dropdown arrow), "Groups" (with a dropdown arrow), and "Explore" (with a dropdown arrow). Below the navigation menu is a horizontal dashed line. The main heading is "Upload photos to Flickr". Below this heading is a status message: "You've used 0% of your 100 MB limit this month - that leaves 99.76 MB. [Upgrade?](#)". Below the status message is a light gray box containing a three-step process:

- Step 1: **Choose photos**
- Step 2: Upload photos
- Step 3: Add titles, descriptions, tags or add to a set

Filter and community

The screenshot shows the Facebook search interface. At the top, there is a navigation bar with 'Profile edit', 'Friends', 'Networks', and 'Inbox'. Below this is the 'facebook' logo and a search bar. The search bar contains the text 'telecentre.org'. To the right of the search bar are 'Search' and 'Advanced Search' buttons. Below the search bar, it says 'Displaying the only result for: **Online Introduction Meeting for tlf**'. The result is a group card for 'telecentre.org' with the following details:

	Group:	Online Introduction Meeting for TLF at GK3
	Network:	Global
	Size:	38 members
	Type:	Common Interest - Activities
	Matches:	<u>Description and Name</u>

On the left side of the page, there is a sidebar with 'Search' and 'Applications' sections. The 'Applications' section includes 'Groups', 'Wiki mono', 'Wiki Whiteboard', 'Events', and 'Photos'.

WHAT'S A CONFERENCE 2.0

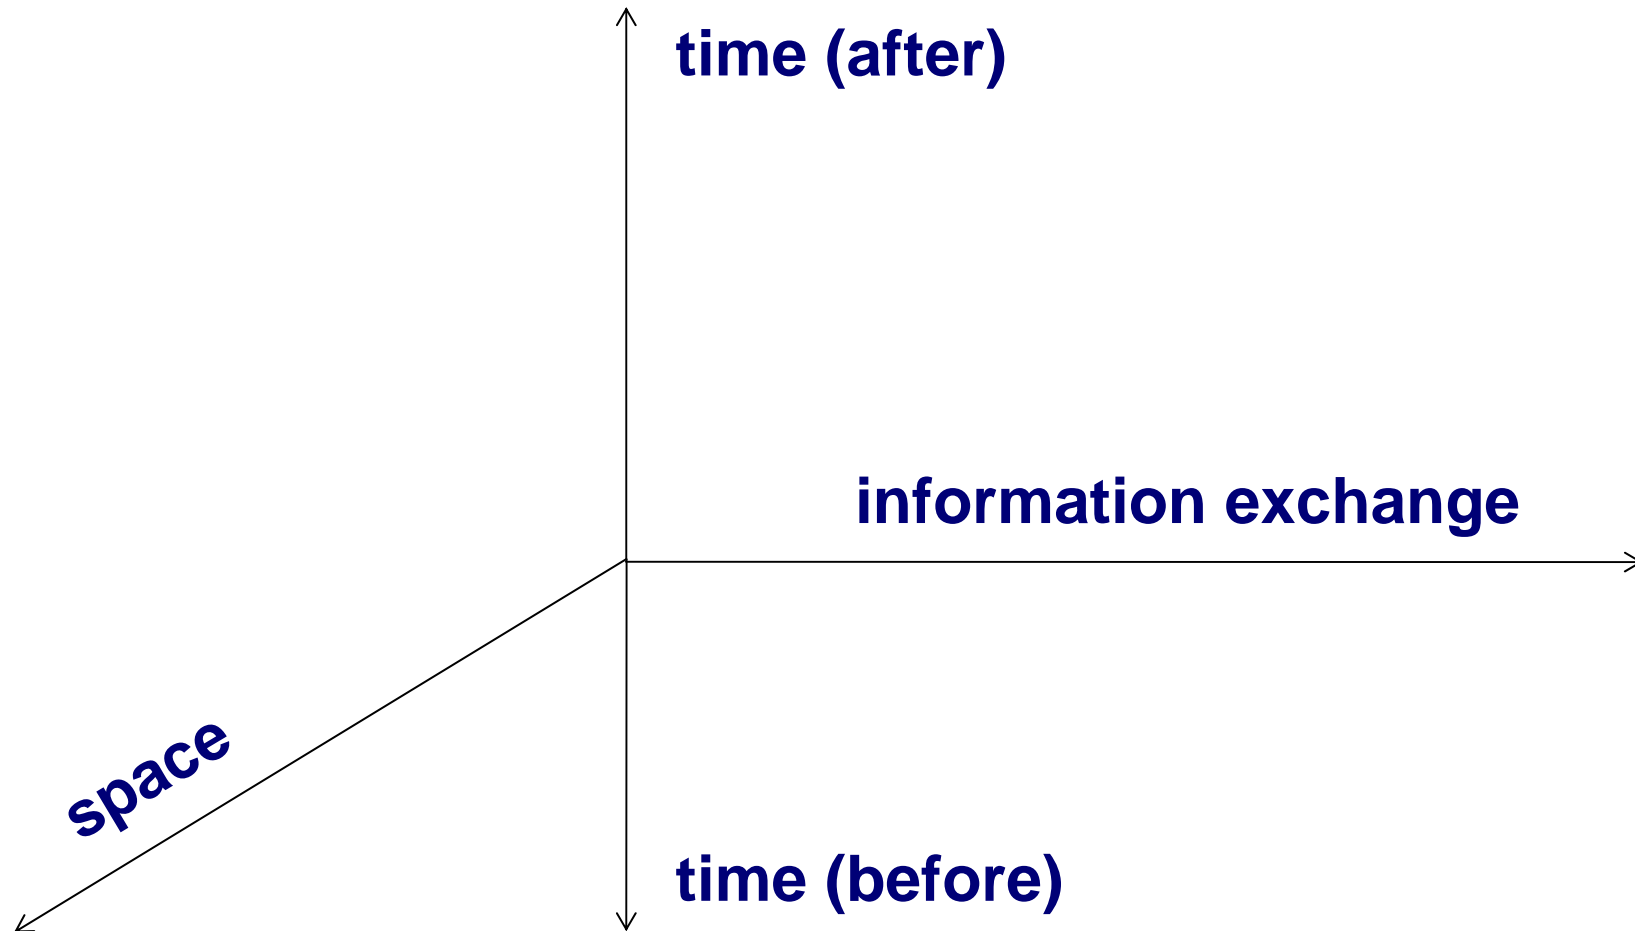

Towards a definition of “conference”

- **Meet**
- **Diffuse information**
- **Share knowledge**
- **Learn**
- **Reflect**
- **Build networks**
- **Try and work together**

Towards a definition of “knowledge diffusion”

- **Research results**
- **Research data sets**
- **Outreach, popularization, spreading, dissemination**
- **Doubts**
- **Questions**
- **Opinions**
- **Forecasts, trends, intuitions**

The question is... are conferences a 1D thing?

DESCRIPTION
Web2ForDev 2007 is the first conference devoted to exploring the ways in which international development stakeholders in agriculture, rural development, and natural resource management can take advantage of the technical and organizational opportunities provided by the often-called Web 2.0 methods and approaches.

HOMEPAGE
<http://www.web2fordev.net/>

upcoming.yahoo.com

Social Networks: Events (II)

The screenshot shows a Facebook event page for "The web2fordev conference". The page is titled "The web2fordev conference" and is categorized as "Global". The event information is as follows:

Information	
Event Info	
Name:	The web2fordev conference
Host:	web2fordev
Type:	Meetings - Convention
Time and Place	
Start Time:	Monday, September 24, 2007 at 7:00am
End Time:	Thursday, September 27, 2007 at 10:00am
Location:	FAO: Headquarters
Street:	Viale delle Terme di Caracalla
City/Town:	Rome
Country:	Italy
	View Map

On the right side of the page, there is a placeholder image with a large question mark. Below the image, there is a button labeled "Add to My Events". Further down, there are buttons for "Share" and "Export". Under the "Other Information" section, a bullet point states: "Guests are allowed to bring friends to this event."

Event blog(s)

The screenshot shows the homepage of the web2fordev blog. At the top, there is a navigation menu with links for Home/Accueil, Archive, Audio/Video, Bloggers/Bloggeurs, and Journalist(e)s, followed by a search bar. Below the navigation is a large banner image featuring a group of people in a meeting and a word cloud with terms like 'Web2 for Dev', 'Participatory Web for Development', 'Convergence', 'Community', and 'Collaboration'. The main content area has a heading 'Welcome - Bienvenue' followed by text in French and English. On the right side, there is a 'Subscribe' section with options for RSS feeds and email notifications, and a 'Contact' link.

About Me v5.2 [edit this](#)

This photo by [Doc Searls](#) at the [SDP2007](#) (CC-BY-SA)

Header photo by [Stuart Yeates](#) at the [Bazaar Seminar](#) (CC-BY-SA)

I am [Ismael Peña-López](#) and I am lecturer at the [Open University of Catalonia](#), School of Law and Political Science, working in the field of Public Policies for Development, with a special focus on ICT (so, ICT4D, digital divide and so). This site, that began as a blog (now I call it personal research portal), is intended to share with all of you the knowledge I might have gathered the last years and the thoughts that might have arisen.

My **research interests** can be written, more or less, this way:

- ◆ Digital Divide, e-Readiness, ICT4D
- ◆ ICTs in cooperation for development, nonprofit technology, online volunteering
- ◆ e-Inclusion, digital capacitation
- ◆ e-Learning, e-Portfolios
- ◆ Open Access, Open Science, Access to Knowledge

Automatic Recordings via EyA System

The Science Dissemination Unit (SDU) of the Abdus Salam International Centre for Theoretical Physics (ICTP) in Trieste, Italy, has been created with the broad aim of disseminating ICTP scientific contents and programs to more people than are able to visit the Centre, throughout the world, via electronic, digital, satellite and other information and communication tools.

Among other things, the SDU has developed a web archive of **audio/video presentations with synchronized slides** of Digital Lectures delivered at ICTP workshops, conferences and at the Diploma Course.

Eya in Action: *Examples*

- A Mathematics ICTP Diploma Course recording: [Traditional Chalkboard Lecture](#)
- Outside-campus recording example: [Seminar](#)
- ICTP International Conference: [All Talks](#)

Articles Published on Eya

- "EyA System: Automated Audio-Video-Slide Recordings" - Proceedings Conference: [ICL-Interactive Computer Aided Learning, Villach/Austria, Sept 2007.](#)

What !?: Checking

The screenshot shows the Wikipedia interface for the article "Participatory action research". At the top, there is a navigation bar with tabs for "article", "discussion", "edit this page", "history", "move", and "watch". The user "lctlogist" is logged in, with links for "my talk" and "my preferences".

On the left side, there is a sidebar with the Wikipedia logo and the text "WIKIPEDIA The Free Encyclopedia". Below this, there are sections for "navigation" and "interaction". The "navigation" section includes links for "Main page", "Contents", "Featured content", "Current events", and "Random article". The "interaction" section includes links for "About Wikipedia", "Community portal", "Recent changes", "Contact Wikipedia", "Donate to Wikipedia", and "Help". At the bottom of the sidebar, there is a "search" box.

The main content area features a fundraising banner with the text "You can help Wikipedia change the world!" and a red button that says "» Donate now!". To the right of the banner, it says "32,075 have donated." Below the banner, there is a quote: "Ich danke allen Ehrenamtlichen bei Wikipedia" - Anon., with a link to "[Hide this message]".

Participatory action research

From Wikipedia, the free encyclopedia

Action Research or Participatory action research has emerged in recent years as a significant methodolog change within communities and groups. It is now promoted and implemented by many international developo programs [CCAR](#), as well as countless local community organizations around the world.

Participatory action research is a recognized form of experimental research that focuses on the effects of t practice within a participatory community with the goal of improving the performance quality of the commur 2002; Reason & Bradbury, 2001; Hult & Lennung, 1980; McNiff, 2002). Action research involves utilizing a planning, taking action, observing, evaluating (including self-evaluation) and critical reflecting prior to plannir McNiff, 2002). The actions have a set goal of addressing an identified problem in the workplace, for exampl through use of new strategies (Quigley, 2000). It is a collaborative method to test new ideas and implemen participation in a dynamic research process, while monitoring and evaluating the effects of the researcher's

The screenshot shows a wiki interface. On the left is a logo for 'Web2 for Dev'. To its right is a navigation bar with buttons for 'article', 'discussion', 'edit', 'history', 'move', and 'watch'. The 'article' button is highlighted. In the top right corner, there is a user profile icon and the name 'lctlogist'. The main title of the page is 'Agenda for open spaces'.

Shared virtual spaces, remote collaboration and knowledge sharing /Espaces virtuels, collaboration et échange des connaissances à distance [edit]

1) **Facebook and development work** <http://developers.facebook.com/> 

While i don't have any experience building applications around Facebook, the idea of using this very popular albeit commercial application in the development sphere is powerful. It certainly seems sustainable, has wide appeal but has privacy concerns. One possible outcome would be for the development community join forces to create a substitute- like with dgroups, (or using the foundations of dgroups...) another would be to use facebook directly. Could be broken down into multiple sessions - users, decision makers, developers. Room needed: **Will depend on the interest** Language: English but could support French as required.

--Dalec 09:51, 28 August 2007 (BRT)

2) **Web 2.0 Taster' Continued'** I want to suggest continuing the practical demo/showcase approach of the pre-conference Web 2.0 Taster Day throughout the Open Spaces. Having a continuous corner/slot of the Open Space 'space' to continue discussions that arose on the pre-conference day, for conference participants to come back to tools they want to look at practically, or to be guided in hands-on fashion in setting up a blog, or mashing a their blog with online video, RSS etc., would provide us with an opportunity to further 'thread' the practical learning together approach around technology. It could provide a recognizable space for people to come with technology-related questions, or demonstrations.

--Saskia Harmsen, IICD September 4 2007

Blogging as a Technology of the Self

Maria Bakardjieva

Faculty of Communication and Culture, University of Calgary

Georgia Gaden

Full text: Not available

Last modified: February 6, 2007

Abstract

Blogging as an activity and blogs as a new communication medium have attracted the attention of Internet scholars for several years now. Our collective knowledge of blogging is advancing rapidly with respect to its evolving genres (Herring et al. 2004); the interlinking, stars and cliques of the blogosphere (Herring et al., 2005); the political potential and limitation of blogs as media of news production and civic engagement (Keren, 2004); as well as the varied uses of blogs across industries and activities such as publishing, marketing, scholarly work, education, community organizing, etc. (Bruns and Jacobs, 2006).

Rather than on the macro-parameters of the blogosphere, its texts and their innovative applications, this paper will focus on mundane blogging, on the individual experiences of bloggers who are far removed from the celebrity A lists of the

**AFTER:
STRENGTHEN
ING THE
NETWORK**

Remember this: Images (I)

The screenshot shows the Flickr website interface. At the top, the Flickr logo is followed by navigation links: Home, You, Organize, Contacts, Groups, and Explore. Below this is a search bar with the text "Search" and tabs for "Photos", "Groups", and "People". The search bar contains the text "web2fordev" and a dropdown menu set to "Everyone's Photos". Below the search bar are radio buttons for "Full text" (selected) and "Tags only".

A green checkmark icon is followed by the text: "We found 540 results for photos matching **web2fordev**." Below this, there are links for "View: Most relevant", "Most recent", and "Most interesting", and "Show: Details" and "Thumbnails".

The search results are displayed as a grid of photo thumbnails. The first row contains four thumbnails: three showing a conference room with a long table and chairs, and one showing a man in a dark shirt. The second row contains four thumbnails: one showing three people standing together, and three showing different views of a conference room. Each thumbnail has a caption below it, such as "From paulamonse" or "From tway76".

Remember this: Images (II)

The screenshot shows a Facebook interface. On the left is a sidebar with the 'facebook' logo, a search bar, and a list of applications including Groups, Wiki mono, Wiki Whiteboard, Events, Photos, Cities I've Visited, and Files. The main content area is titled 'Photos of You Added by Others' and shows a group photo of approximately 20 people sitting in a lecture hall. A caption at the bottom of the photo reads 'Ismael Peña-López'. Navigation links for 'Profile', 'Friends', 'Networks', and 'Inbox' are visible at the top, along with 'home', 'account', and 'privacy' links.

Let's build community: Social Networks

The screenshot shows the Facebook interface for a group named 'web2fordev'. The top navigation bar includes 'Profile edit', 'Friends', 'Networks', and 'Inbox'. The right side of the top bar has links for 'home', 'account', 'privacy', and 'logout'. The left sidebar contains the 'facebook' logo, a search bar, and a list of applications: Groups, Wiki mono, Wiki Whiteboard, Events, Photos, Cities I've Visited, and Files. The main content area displays the group's 'Information' tab, which includes 'Group Info' (Name: web2fordev, Type: Internet & Technology - Websites, Description: Web2ForDev 2007 is the first conference devoted to exploring the ways in which international development stakeholders can take advantage of the technical and organizational opportunities provided by Web 2.0 methods, approaches and applications.) and 'Contact Info' (Email: blog@web2fordev.net, Website: http://blog.web2fordev.net/, Country: Italy). On the right, there is a group cover image with the text 'Web2forDev Participatory Web for Development' and buttons for 'View Discussion Board', 'Invite People to Join', and 'Leave Group'. A 'Share +' button is also visible.

Contact me: VoIP

The screenshot displays the Skype desktop application interface. At the top, a navigation bar includes icons for 'Contactos', 'Llamar', 'Live', 'SkypeFind', and 'Registro'. Below this, a list of contacts is visible, with 'John Moravec' selected and showing a timestamp of 'Hoy 20:10'. A profile window for 'John Moravec' is open, featuring a profile picture of a smiling man, his location '13:11 (GMT-6), Minneapolis, Estados Unidos', and a 'Menú' button. The user's name 'John Moravec' is also visible in the window's title bar. At the bottom right of the interface, the text 'Nombre de usuario: johnmoravec' is displayed next to the 'skype.com' logo.

English	<p>Technological innovation is taking place at a breathtaking pace. We are seeing the emergence of dozens of free or very low-cost interactive web applications and services that can enhance the ways we create, share and publish information, and the ways we collaborate and share resources. These developments provide us with a set of technical opportunities and challenges that we need to understand and grasp. To exploit the tools, and tap the full potential of 'web 2.0' applications and thinking on institutional and individual behaviours, we also need to consider how these new applications interact with the ways that individuals and institutions communicate, collaborate, and apply knowledge to development problems.</p> <p style="text-align: center;">Web2ForDev 2007</p> <p>Participatory Web for Development: Networking, collaborating and exchanging knowledge in agriculture, rural development and natural resource management</p>

On the other hand, and partly due to the former aspects, v
increasing demand for more accountability and transp
researchers, resulting in both a claim for a deeper and wide
and a call for better and denser research networks.

The seminar “Conferences 2.0: Scientists and Web 2.0” will

First part, Web 2.0, will point out the main characteristics o
can be overridden depending on the knowledge on the issue l

Second part, What's a Conference 2.0, will to summarize h
the field of scholarly diffusion in the last years or, more sp
of the Internet, the web browser and Web 2.0 applications.

Las part, the bulk of the seminar, will draw the “perf
scientific diffusion strategy - by revisiting some good prac
applications existing around.

Anyhow, the focus and the stress will be put in both the chan
communication and the creation of a showcase of real pr
setting up this new path.
